

Using Adobe Connect with MTD Phone Conference Bridge

MoreThanData has invited you to a web conference and these instructions should help you get online correctly with our webinar service and our phone bridge.

Step One

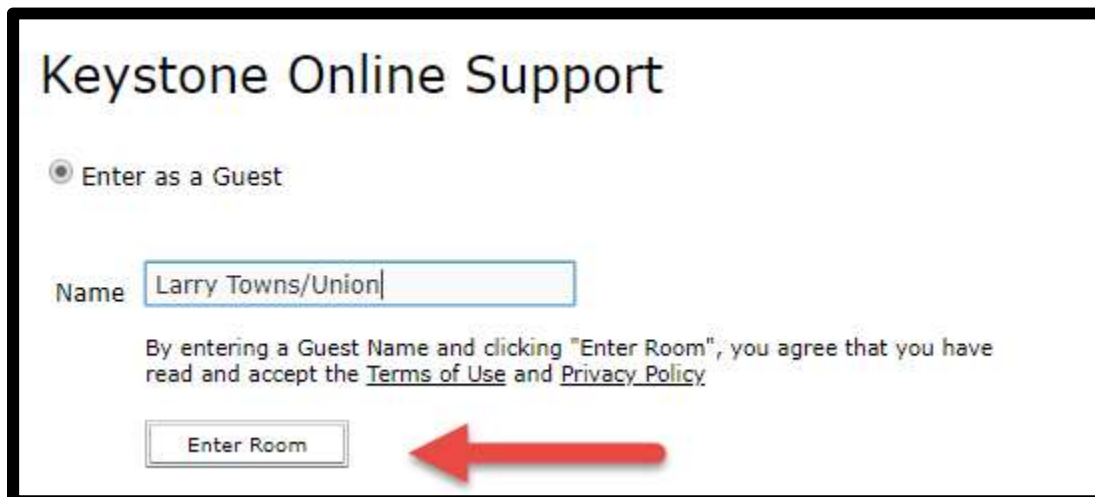

Call into the conference bridge. The phone number is **1-866-305-2467** and the access code is **642046#**. Just follow the prompts and you should be able to get onto the call. By calling in first, we can help you with any Adobe problems. If you need to mute your phone you may use *6 to mute your line. Most phones also have a mute button.

Step Two

Open up your internet browser. Either Google Chrome or Microsoft Explorer work well. Enter the **URL, morethandata.adobeconnect.com/support**. Do not use WWW as the first URL characters.

You may be prompted to download a plug-in from Adobe. This should be quick and you may have to click accept at least once but just follow their prompts.

A log on screen will pop up for you to enter as a guest. You need to enter your first name and a key word from your Affiliate's name and press the **Enter Room** Button. Note the example below is for Larry from Towns/Union.

Keystone Online Support

Enter as a Guest

Name

By entering a Guest Name and clicking "Enter Room", you agree that you have read and accept the [Terms of Use](#) and [Privacy Policy](#).

MTD will get a message in the lower right hand corner of our adobe window that a guest is requesting entry and we will hit the **Accept** button.

Step Three

You should be viewing the presenter's remote computer screen. If you cannot read the text on the screen please let us know. It may help to open your browser to full screen. F11 should do it.
